

A: I had a similar problem to yours. I was able to get the Autodesk Revit Structural Analysis 2017 version to run on Windows 7 64-bit by reinstalling the software and uninstalling the pre-existing version. More specifically, I had found Autodesk Revit Structural Analysis 2013 (by Autodesk Robotics Structural Analysis) on my machine. I then tried to manually uninstall Revit in my case using instructions here and here. Ultimately, I uninstalled Revit and then reinstalled it. When I do this, I also get the new installer. In my case, I found this by searching for Autodesk Revit Structural Analysis 2017 on my computer (I already knew I had it installed by a prior method), and then saw what was the next most recent installer in the search results. The Autodesk Revit Structural Analysis for Windows software is no longer on Autodesk's website, so you might have to search for the latest installer for your version of Windows, which might be at Autodesk's website. A: I had a similar problem. I tried everything, including several Autodesk support agents via chat, etc. Eventually I just removed my install of the previous software and reinstalled to no avail, but then I went to the Autodesk site and downloaded the software after it had been auto-installed and it was fine. Q: Javascript history.back() breaks after triggering it I have a javascript application in which I need to navigate backwards through a history of 10 steps. The problem is that when I move through the history, and then try to move backwards, I get an error: Uncaught TypeError: Cannot read property 'back' of undefined Here's my code function stop() { S('body').addClass('loaded'); } function reload() { window.location.reload(); } function next() { window.location.href = window.location.href + "#" + Step + 1; } function prev() { window.location.href = window.location.href.split("#").pop(); } var Step = 0; \$(document).ready(function() { S('

A thunderstorm pummeled the North and West, causing a tree to fall on a power line and knocking out power for an estimated 13,000 homes and businesses. Local authorities were predicting that the shutdown would continue late into the evening. As devastating as that was, you f678ea9f9e
